

## CIVIL/SPORTS ENGINEER

### Company Description:

Lloyd Sports + Engineering is a full-service sports engineering firm specializing in the planning, design, and construction administration of both private and public sector projects. Our multidisciplinary team has a long history of completing various sports focused projects throughout the United States and overseas. Our professionals also have an extensive portfolio of work with municipal, education, and professional sports clients, designing and engineering everything from site civil work, sports field renovations and stadiums, sports courts, track and field design, feasibility studies, asset management, and operational and maintenance studies and plans. Our portfolio of repeat business is a testament to our staff's outstanding level of technical expertise, creativity, and project experience.

### Job Description:

As a Lloyd Civil/Sports Intern you will be working at the local Tempe, AZ office with senior staff on various projects from K-12, Higher Education, including projects located out of state. This position is designed to identify potential full-time candidates who possess an interest and/or passion in the sports industry. You will have the opportunity to have a mentor and learn from senior engineers and designers at Lloyd. Example projects could include civil site design, roadway design, dry and wet utility design, turf field renovations, sports court design, a new school campus addition, etc. Candidates will be exposed to various levels of play from recreation, school sports, and professional sports, ranging in soccer, baseball/softball, football, volleyball, pickleball, tennis, track & field, and others. Additional civil design work may include roadway, parking, water, sewer, storm, dry utilities, etc.

### Responsibilities:

- Participating in cross function teams and projects
- Assist with civil and sports design and drafting
- Help prepare drainage, water, and sewer reports
- Prepare civil surface files used for grade and drainage plans
- Conduct periodic site visits to construction sites to monitor quality and progress of the work
- Provide support to staff members as needed
- Performs engineering development review under close supervision
- Attends on-site construction meetings

**Qualifications/Ideal Characteristics:**

- 2-3 Years of professional civil/sports engineering experience
- Minimum 4-year bachelor's degree in civil engineering or related field from an accredited program.
- Highly motivated with strong communication and interpersonal skills
- Demonstrates analytical and critical thinking skills
- Must be detail and result oriented with a proven track record of success
- Desire to continue a career in the civil engineering field
- Ability to work and thrive in a team environment
- Ability to effectively interface with all levels of personnel and management

**Position Type:** Full-Time

**Class Level:** 2-3 years of experience, EIT preferred

**Work Authorization:** Permanent US Resident

**Job Title:** Civil/Sports Engineer

**Job Function:** Civil and Sports Engineering and Design

**Posting Date:** 08/28/2023

**Salary:** TBD

**Location:** Tempe, AZ
